

IT PROJECTS FOR AIRPORTS

30+ YEARS OF IT PROJECT EXPERTISE

With airport IT departments continuing to manage an unprecedented number of IT projects – ranging from simple IMACS to coordinating the IT element of major construction works – our knowledgeable IT Project Managers can be available to help. Not only are they experienced in managing the IT systems within major airports but also they are trained to “talk Project Manager”. Put simply, they know what “good” looks like and can manage delivery of the project, on your behalf, while also facilitating communication between the airport and the selected contractor/vendor.

IT PROJECT SERVICES FROM SERVICETEC WILL HELP YOU:

Ensure projects are delivered on time and to budget

Reduce disruption from overburdening or diverting airport's own IT staff

Have clearly defined roles and responsibilities

Understand the potential impact of changes

Improve communication across all levels

Fully document processes to repeat successful approaches

OUR CAPABILITIES IN IT PROJECT MANAGEMENT

- ✓ Comprehensive solutions, from extra resources to project management
- ✓ Access to specialists in airport IT projects, with in-depth knowledge of the unique challenges
- ✓ Assessment of project requirements, risks and rewards
- ✓ Assistance with every part of an IT project, including people & asset management, ITIL best practice and PRINCE2, PMP and/or AGILE methodology

HOW IT WORKS

WORLD-CLASS IT PROJECT MANAGEMENT

The levels of complexity involved in any major IT project makes it vital that airports and airlines partner with world-class experts, who specialize in IT for airports.

PROVEN IT PROJECT TEAM

Our worldwide team of highly trained and certified consultants, engineers and IT project managers have a proven track record of managing customers' IT resources and capabilities.

UNMATCHED KNOWLEDGE

With highly trained and certified IT consultants, specialists and project managers, and in-depth knowledge of the specific and unique issues facing airports across the world, our team is ready to deliver your airport's next IT project.

UNRIVALLED RELATIONSHIPS

Our relationships with a wide range of leading specialist hardware manufacturers reinforces our position as the ideal IT project partner for airports. This unique position allows us to deliver precisely what is required for any international airport's project.

A SAFE PAIR OF HANDS

With a long and successful history of managing numerous major IT development programs, we have built an enviable reputation in the IT project management arena. Our teams help airports and airlines develop processes and systems that add true value to their projects and service transitions.
